

KLOPP® Coin Scale

No Scale is more rugged or dependable.

KCS Series

The **KCS Series** Coin Counting Scale is an easy-to-use, highly accurate scale for weighing coins, tokens, US paper currency and tickets. The keypad has 10 programmable keys, 6 are preprogrammed for all US coins and 4 extra keys allow for programming currency, tokens and tickets. Keys are password protected, adding security when used by operations in the field. Keyboard unit weight calculations and calibration of all keys are fast and easy. Up to 25 multiple weighments can be accumulated for batch counting. The scale is battery operated (125 hours of continuous use) and can go anywhere. Scale comes standard with RS-232 port for computer or printer interface.

The scale will count in 3 seconds or less, displaying quantity and total value. Scale is completely portable with battery or AC Adapter and optional carrying case. The 3 models will weigh a max of \$250, \$500 and \$1,000 in quarters, respectively.
