

LIKE SYSTEMS: LC-20 (Currency Discriminator - 2 Pocket)

The LC-20 is a multi-function currency sorter that includes mixed and piece note counting, note sorting, facing, orientation and serial number recognition. The 4.3" color touch screen allows easy use and navigation with user friendly icons and an enlarged count display. Its fast operation with up to 1,000 notes/min counting, 600 note capacity hopper, 200 note stacker and 100 note reject pocket has the performance you expect from LIKE Systems.

FEATURES:

- **Counting Modes Include:**
 - **Mix:** Counts mixed money, providing grand total and itemized count.
 - **Auto:** Counts 1 Denomination and sorts all other denominations into reject bin.
 - **Free:** Counts all bills, providing quantity total.
 - **Face:** Faces all bills (heads up or heads down)
 - **Orientation:** Orientates all bills in proper direction: (heads facing right or heads facing left)
 - **Serial:** Serial Number Recognition captures the serial numbers of each bill being processed.
- **Counts and Identifies all US denominations**
- **Full Counterfeit Detection**
- **Low Reject Rate**
